PROFESSIONAL SUMMARY

Security-focused with hands-on experience in security monitoring, threat detection, and Pentesting . Proven ability to analyse network traffic, detect vulnerabilities, and mitigate threats using industry-standard security tools. Strong background in Web Infrastructure, cybersecurity frameworks, and penetration testing techniques.

PROFESSIONAL EXPERIENCE

NOC Engineer | Bezeq International

2024 - Present

- Led security event monitoring and network traffic analysis, implementing robust threat detection protocols
- Conducted network log analysis and forensic investigations to identify and resolve security incidents
- Collaborated with SOC teams to develop enhanced security defense strategies
- Managed configuration of IDS/IPS and firewalls

Account Executive | Cybecs Security Solutions

2022 - 2023

- Served as trusted cybersecurity advisor, providing strategic guidance on security best practices
- Delivered security presentations and product demonstrations to organizations
- Built client relationships through consultative selling approach focused on cybersecurity solutions

EDUCATION & CERTIFICATIONS

- Google Cyber Security Professional Certificate** (Ongoing)
- ZTM - Web Security & Penetration Testing**
Ethical hacking, OWASP Top 10, Burp Suite
- KERNELiOS - Cyber Security**
Network security, threat analysis
- Full Stack Development – Elevation**
JavaScript, Web Development, API

TECHNICAL EXPERTISE

Security Monitoring: SIEM, Simba, IDS/IPS, Event Correlation	Network Security: Wireshark, Firewall Rules, VPN
Incident Response: Log Analysis, Threat Hunting	Web Security: OWASP, Burp Suite, Metasploit
Cloud Security: AWS Security, IAM	Programming: JavaScript, HTML, CSS, SQL

TOOLS & TECHNOLOGIES

Log Analysis: Splunk, Grafana, Orion **Network Security:** Wireshark, IDS/IPS, SecureCRT

Penetration Testing: Burp Suite, Metasploit, Nmap etc..

Security Frameworks: MITRE ATT&CK, OWASP Top 10

LANGUAGES

Hebrew (Native) | English (Fluent)

SECURITY CLEARANCE

Security Classification Level 3
